Tena koe Trudie,

**CONSULTATION ON THE COROMANDEL SCALLOP IN-SEASON TAC REVIEW**

**Introduction**

The Ministry of Fisheries is currently consulting on the review of the total allowable catch for the Coromandel scallop fishery for 2010-11 fishing year. A pre-season survey conducted by NIWA reveals that scallop abundance is sufficient to justify a review

**Te Ohu Position**

Te Ohu supports option one – to increase the TACC to 100 tonnes. We also support the submissions put forward by Coromandel Scallop Fishermen's Association, Seafood Industry Council, and Ngai Te Rangi.

Noho ora mai

Alan T Riwaka  
Senior Fisheries Management Advisor
