Dear Stakeholder

## **Review of Sustainability Measures and Other Management Controls for the 2004-05 Fishing Year**

Each year the Ministry of Fisheries (MFish) undertakes a process to review the management measures for some of New Zealand's fisheries. The **Initial Position Paper (IPP)** provides you with MFish's initial position on the sustainability measures and other management controls for the 2004-05 'post-April' sustainability round process which includes the following issues:

- i) Adaptive Management Programme Reviews – bluenose, elephant fish, John dory, pale ghost shark, red gurnard, school shark and tarakihi;
- ii) Conversion Factor Review – shark fin

The purpose of this letter is to invite you to participate in this review process.
